PROFESSIONAL EXPERIENCE

Freelance Web Developer & Founder, PromoteMatic

Remote

2022 – Present

- Designed, developed, and optimized responsive websites for clients across finance, hospitality, real estate, and technology, ensuring speed and brand consistency.
- Built with React, GSAP, WordPress and static HTML/CSS/JS; handled SEO setup, deployment, and launch for each project.
- Enhanced site functionality and UX through plugin integration, SEO best practices, and accessibility compliance.

PROJECTS

PromoteMatic | *React, Tailwind CSS, JavaScript, GSAP Animation* | [Link](#)

- Developed a fully responsive, SEO-friendly website using React, ensuring optimal performance across devices.
- Implemented smooth GSAP animations and interactive UI components to showcase the agency's expertise in design, development, and marketing solutions.
- Optimized component-based architecture for scalability and maintainability.

Moneyrops Capital Advisors | *HTML, CSS, JavaScript, SEO* | [Link](#)

- Built a corporate website for a financial advisory firm with six service pages, an EMI calculator, FAQs, lender showcase, and a referral form.
- Set up on-page SEO (canonical tags, Open Graph, meta data), WhatsApp enquiry, and search indexing for better visibility.

Blueera Infrastructure | *HTML, CSS, JavaScript* | [Link](#)

- Developed a corporate presentation website for an infrastructure company, showcasing services and projects with a clean, responsive layout.
- Optimized page speed and cross-device behaviour for a professional client-facing experience.

TrovaSemi | *HTML, CSS, JavaScript* | [Link](#)

- Implemented a responsive design with smooth transitions and animations, enhancing the user experience.
- Optimized website performance and SEO, improving site speed and search visibility for better user engagement.
- Developed a professional website for TrovaSemi, a semiconductor company, showcasing their products and services.

Mount View Grand Villa | *HTML, CSS, JavaScript, SEO* | [Link](#)

- Designed a luxury hospitality website with elegant layout and motion to present rooms, amenities, and the villa experience.
- Handled SEO setup and deployment to improve discoverability for direct bookings.

Deep Semi | *HTML, CSS, JavaScript* | [Link](#)

- Built a clean, analytics-style corporate website with structured sections and a responsive layout across devices.

Villa Euphoria | *HTML, CSS, JavaScript* | [Link](#)

- Created a premium real-estate showcase website with a polished, mobile-friendly presentation of the property.

Truman Technologies | *React.js, Tailwind CSS, GSAP* | [Link](#)

- Developed a modern, responsive website using React with reusable UI sections and clean layout structure.

- Implemented smooth animations and transitions using GSAP to enhance user engagement.
- Applied responsive design principles ensuring optimal performance across devices, with a focus on scalability and clean code.

Powerflex Industries | *React, Vite, REST API* | [Link](#)

- Built an industrial company website with product listing and detail pages, blogs, awards, careers, and an enquiry form connected to a backend API.
- Structured the app with React Router and reusable components; deployed on Vercel.

The Green Leaf | *WordPress* | [Link](#)

- Designed and developed the complete front-end for TheGreenLeafOoty website using HTML, CSS, and JavaScript, delivering a clean, responsive user experience.
- Implemented interactive UI elements, optimized page load performance, and ensured cross-browser compatibility to drive improved engagement and usability.

TintBliz | *WordPress* | [Link](#)

- Created an engaging website for a T-shirt company, showcasing their exclusive products and brand identity.
- Implemented a fully responsive layout with seamless animations and user-friendly navigation to enhance customer engagement.

Two Leaves Tea | *HTML, CSS, JavaScript (Concept)* | [Link](#)

- Designed an e-commerce boutique layout concept for a tea brand, focusing on product presentation and a clean shopping flow.

Flower & Cake Shop | *HTML, CSS, JavaScript (Template Customization)* | [Link](#)

- Customized and deployed a bakery and florist website template, adapting layout and content for a small business.
